

Stellavix Service Portfolio

Empowering businesses with scalable architecture, cloud innovation, and next-gen AI solutions.

We offer a comprehensive suite of engineering and strategy services designed to take products from concept to market leadership. Our expertise spans legacy modernization, cloud-native infrastructure, and cutting-edge automation.

Product & Engineering Services

- MVP Development (Startup-ready builds)
- Product Modernization / Legacy App Migration
- Monorepo Architecture & Codebase Standardization
- Microservices & Event-Driven Architecture
- API Design & Development (REST, GraphQL)
- Headless CMS Development
- White-label Product Development
- Multi-tenant SaaS Architecture

Cloud, DevOps & Infra

- Cloud Migration (AWS / GCP)
- Serverless Application Development
- Infrastructure as Code (Terraform / CloudFormation)
- Cloud Cost Optimization & FinOps

- High Availability & Disaster Recovery Setup
- Auto-scaling & Performance Optimization
- CDN & Edge Computing Solutions (Cloudflare)
- DevOps Consulting & Setup
- Monitoring, Logging & Alerting (Observability)

Security & Compliance

- Application Security Audits
- Payment Security & PCI-DSS Compliance
- Authentication & Authorization Systems (OAuth, SSO)
- Role-Based Access Control (RBAC)
- Data Encryption & Secure Storage
- Secure API Gateway Implementation

AI & Automation Services

- AI-Powered SaaS Features
- AI Chatbots & Virtual Assistants
- AI Integration (Claude, Bedrock, Custom Models)
- Workflow Automation with AI
- Recommendation Systems
- AI Proof-of-Concept (PoC) Development

- Model Deployment & MLOps
- Data Pipelines for AI Applications

Data & Analytics

- Analytics Dashboard Development
- Business Intelligence Solutions
- Event Tracking & Funnel Analytics
- Data Visualization Tools
- ETL Pipelines
- Real-time Data Streaming Systems

Mobile & Cross-Platform

- Cross-Platform App Development Strategy
- App Performance Optimization
- App Store Deployment & Compliance
- Push Notification Systems
- Offline-First Mobile Apps

UX, Design & Growth

- Product UX Audits
- Design Systems Creation
- SaaS UI Kits

- Conversion-Focused Landing Pages
- UX for AI Products
- Accessibility (WCAG) Compliance
- Branding for Digital Products

E-commerce & Payments

- Custom Checkout Experiences
- Subscription & Billing Systems
- Marketplace Development
- Multi-vendor Platforms
- Payment Orchestration & Smart Routing
- International Payments & Tax Handling
- Fraud Detection & Risk Systems

Consulting & Strategy

- CTO-as-a-Service
- Startup Tech Advisory
- Architecture Reviews
- Scalability & Growth Planning
- Vendor & Tool Selection

- System Performance Audits
- Technical Due Diligence (for VCs & Acquisitions)

Maintenance & Support

- Dedicated Engineering Teams
- Ongoing Product Maintenance
- SLA-Based Support & Monitoring
- Version Upgrades & Dependency Management
- Feature Enhancements & Roadmap Execution
